

DEE XIAO 「萧笛」

+86 (186) 0164-0024 mopjtv@gmail.com deexiao.com

个人简介

MS graduate student from [Arizona State University](#) who can bring a diverse skill set and creative drive to software application development. Proficient in writing code in various languages, and feature development and implementation. Specialized in thinking outside the box to find unique solutions to difficult engineering problems.

教育经历

「美国 本科」 <i>Bachelor of Science, Computer Science</i>	Arizona State University - USA	GPA: 3.6 / 4.0	Jan 2013 - May 2017
「美国 硕士」 <i>Master of Science, Computer Science</i>	Arizona State University - USA	GPA: 3.5 / 4.0	Jan 2018 - Jan 2019

专业技能

- **Mobile Development (iOS & Android):** Obj-C/Swift, Java/Kotlin
- **Other Programming Languages:** C, C++, Python
- **Software Development Methodologies:** Agile, Scrum
- **Web Development:** ASP.NET, VueJS
- **Version Control:** 5+ years of intensive Git use
- **Automated Testing:** JUnit, JMeter, UnixBench

工作经验

Product Manager Jan 2020 - Now
[壹龙智能科技（无锡）有限公司](#)

- Implemented the bid testing to compare the different companies quoted price.

Software Engineer Jan 2019 - Jan 2020
[华为技术（上海）有限公司](#)

- Problem Location and Optimization: Analyze and locate the functional problems of MML module.
- Delivery Requirements: Complete the background development of the base station group in the Unicom competition version.
- Code Cleanup: Responsible for the static cleaning of C++ code in the release work to ensure the code quality of the release.

Web Developer Intern Aug 2018 - Oct 2018
[Helix House（美国） Digital Advertising Agency](#)

- Reconstructed Website platform to be more responsive, optimized website load, setup up testing instance, reconfigured site for SEO, and enabled Hubspot/ Google Analytics for tracking.

Teaching Assistant of Data Structures Aug 2016 - May 2017
[亚利桑那州立大学（美国） Ira A. Fulton Schools of Engineering](#)

- Assisted Dr. Mutsumi Nakamura with exploratory and collaborative learning activities, met with professor on a regular basis to prepare for exam review sessions and lecture activities.

Software Engineer Intern May 2016 - Aug 2016
[飞利浦（中国）投资有限公司 - HSDP \(HealthSuite Digital Platform\)](#)

- Designed Philips HSDP strategy - Deploy, develop and support a cloud platform to connect health and medical devices all together to form an ecosystem, real time collect and analyze data and make critical decisions for customer, patients and businesses.
- Implemented the stress testing to compare the virtual machine performance of two public IaaS providers (AWS and HUAWEI Cloud). JMeter, UnixBench and Hadoop WordCount are utilized to provide benchmark data for the comparison.

个人开发

SeatsFinder [Published on Apple Store](#) Skills used: iOS (Swift) + ASP.NET + Web API + MVC + SQL Server (MS) + Cloud Deploy (Azure)

- Cross platform: iOS App [\[Link\]](#) + Windows / PC [\[Link\]](#) + Web App [\[Link\]](#) + Python Script [\[Link\]](#)
- Help students get into classes by monitoring opening seats. Students will get alerted whenever the server detects an opening.
- Follow the MVC design pattern, hosted on Azure & GCP and use ASP.NET to do all back-ends including Restful API Calling/Creation.
- DBMS using MS SQL Server and iOS CoreData; iOS In-App-Purchase Membership option to accelerate the server speed.
- SeatsFinder has achieved thousands of users from ASU and hundreds of new users per semester. [More info](#)

StockTakes [Published on Apple Store](#) Skills used: iOS (Swift) + ASP.NET + Web API + MVC + Cloud Deploy (Azure)

- Inventory Counter App For PwC employers, hosted on Azure & GCP and use ASP.NET to do all back-ends

Morney App Skills used: VueJS + TypeScript + Vue Router + Vuex

- Application for a quick tracking of your expenses and income as well as a control over your personal financial situation.
- Web / Mobile App [\[Link\]](#)
